Subject: Joining the United Nations Global Compact

Dear Sir or Madam,

On behalf of Kabel Sterner GmbH, we hereby declare our commitment to joining the United Nations Global Compact. We firmly believe that sustainable business practices are crucial in effecting positive change in the world.

As a producer of wires and cables for the industrial sector, we intend to align our business practices with the ten principles of the United Nations Global Compact. We will strive to respect human rights, promote labor standards, protect the environment, and combat corruption in all its forms.

We understand that the United Nations Global Compact provides a platform for companies to demonstrate their commitment to responsible corporate governance. We are ready to make our efforts transparent by submitting an annual progress report on our implementation of the Global Compact principles.

We look forward to collaborating with other signatories of the Global Compact to collectively create a sustainable and inclusive economic world.

Sincerely,

Michael Sterner
Kabel Sterner GmbH
General Manager
